

## Norfo frozen block sawing line

Man. year: 2001

The system consists of two saws: automatic single band saw ABS and multiband saw MBS with five horizontal band blades.

Frozen fish block is feed to automatic band saw ABS, which cuts it to bricks of pre-set width. Then these bricks are transported to the next multiband saw MBS and this machine cuts them into plates.

Capacity: from 1500 to 5500 kg/hour
