

## Marel M2000 Single line grader for 8 gates

Condition: Good, working

Grader for raw material (fish, chicken, poultry and meat). Equipped with baskets and high-precision dynamic weighing unit.

Grader is able to sort production into 8 groups.

Equipped with dynamic scales, separator with 8 gates.

The machine is easy to set-up and operate. Equipped with the user-friendly M2000 graphical interface.

M2000 Industrial Controller provides full production control. It also features flexible access control, which prevents unauthorized personnel from changing settings. When needed, the M2000 can also control in-feed and take away systems.

High-quality components to ensure long life and low maintenance. It is quick and easy to put the grader in a washing position that gives access to all parts that need to be cleaned.
