

Starfrost Spiral freezer for IQF and fish products

Manufactured year: 2002

Condition: Good, working

Chamber with spiral conveyor for freezing IQF goods, fish and seafood, vegetables, and berries.

The average capacity reaches up to 2000 kilograms per hour, and it demonstrates high-quality performance with -40° C temperature.

Refrigerant: R22, R507, R404

Cooling capacity: 250 kW

Pressure: 12 bar

Dimensions of chamber (LxWxH): 14200 x 5200 x 4300 mm

Weight: 20 tons

Spiral conveyor

Quantity of layers: 2 x 23

Length of conveyor: 460 m

Width of conveyor: 665 mm (width of working area for the product is 550 mm)

Height of conveyor with all layers: 3800 mm

The diameter of conveyor: 3920 mm
